RAVEN+

### FEATURES

The Zero-X Raven+ is a robust, lightweight drone perfect for novices learning to fly. Raven+ is nimble enough to perform acrobatic manoeuvres at its highest speed setting, yet forgiving and intuitive enough at its lowest speed setting to get up and fly with confidence quickly. Raven+'s built in High Definition camera can record video in 1080p and take photos in 5MP resolution from dizzying heights, capturing impressive aerial shots easily with the push of a button on the remote control. Raven+'s camera angle can also be controlled via the remote control allowing you to adjust your camera view without returning to earth.

								
60 Metre Controllable Range	High Definition 1080P Video	5MP Photos	Camera Controls	6 Axis Gyroscope	Directional Lock	360° Flips	Replacable Rotor Blades	700mAh Battery
